

PORTFOLIO

Our Vision

YOUR PROJECT - OUR SOLUTIONS

anisoFT INFORMATION TECHNOLOGY SOLUTIONS known as **anisoFT IT SOLUTIONS** is a unit of **anisoFT Aviation Technical Consultants**, which is famous for providing its Technical Consultancy services in the Aviation Industry and has now also diversified into providing IT Solutions.

anisoFT IT SOLUTIONS assists companies in designing, developing and migrating their current IT infrastructure to the cloud platforms. We assist our clients and partners to move their services and products up the value chain, which creates a unique experience for their existing and new businesses.

Our team having an experience of more than 30+ years collectively, came from varied backgrounds such as **Infrastructure, Software Development, Cloud Platforms** etc. will be an asset for any organization as they strive to provide their innovative ideas, quality software and data safety insights to the decision makers.

If you choose our company to design and develop you IT projects:

We assure that you won't lose!!!

&

Our pricing policy is not only competitive, reasonable but is also flexible.

OUR SERVICES

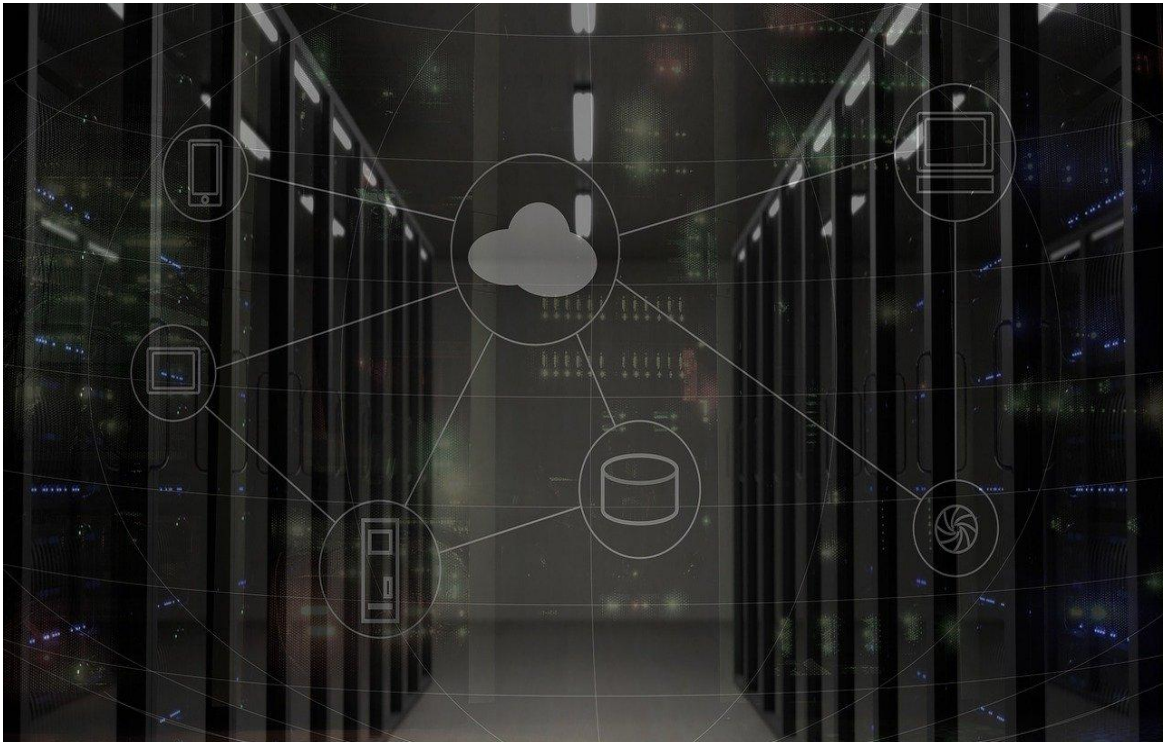

Data Center Management

We will ensure all the components that encompasses the data center will remain operational and up to date with latest patches. We will be working for you round the clock through any of the below service model:

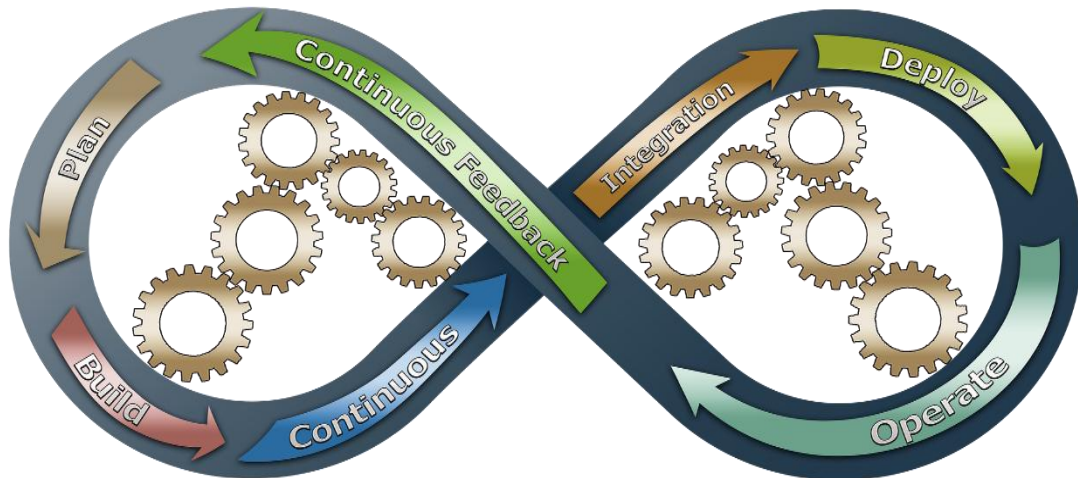

- **Support:** Our consultants will be stationed at our client's location and support them with their datacenter management expertise. They will ensure that your datacenter issues get resolved with minimal downtime.
- **Managed Service:** If you are planning to outsource your entire datacenter service, then our team will manage this for you 365x24x7. During non-peak hours, our remote hands will be a valuable asset for your business.

Cloud Migration

- We help our clients to move their business from their local datacenter to the cloud platform, which reduces their operating cost and increase business continuity.
- Our experts are equally available to help you select the right fit for your organization's goals and requirements.

 **DevOps & DevSecOps**

- We develop and provide **Cloud Native Application Platform**, a computing environment for Future Application Development, which helps customers to adopt **Container**, **DevOps**, and **Microservice Technologies**. Our solutions are based on **FOSS (Free and Open Source)**, which aims to reduce your IT costs to a minimum.
- Security and Compliance is a shared responsibility between the cloud provider and the customer. We help you in **Adhering to those Compliances** and help you in **Keeping your Application Secure** in the cloud environment.

 **Web & Mobile Development**

- Our web **Application Development** and **Custom Programming Services** include everything from a simple **Content Management System** enabled website to the most **Complex Web-based Internet Applications**.
- Our team concentrates on delivering performance based iPhone and Android applications with data and memory management. We can develop custom websites, web & mobile applications on a wide range of technology platforms.
- Understanding the unique business challenges of every client, our website application development team has a thorough understanding of client's objectives and works with them in close collaboration to come up with most scalable and optimized solutions.
